box*

Part 1

Introducing the MSD4E Landscape Assessment

Introduction

An initiative to map and profile MSD4E interventions around the world

The challenge

- Demand for more systemic approaches to improving employment outcomes
- Evidence base for MSD4E still nascent
- No easy way to learn about the work of others

The landscape assessment

- 50+ snapshots of MSD4E interventions around the world
- A way to connect to and learn from each other
- Evidence to inform new and existing projects

Methodology

1 Data collection

- May 2023 - January 2024
- Interventions identified using targeted outreach and online survey

2 Sampling strategy

- MSD4E 'Litmus Test'
- Waged and self-employment in non-agricultural sectors

3 Data analysis

- Standard intervention template
- Rolling screening and analysis
- Multiple rounds of editing

4 Limitations

- Project-reported information
- Not an evaluation

Part 2

The MSD4E Intervention Library

What is the Intervention Library?

- **Purpose:** Find each other's work and connect to learn more
- **Content:** 53 structured summaries (2-4 pages each)
- **Use:** Select filters to narrow down what you are looking for

Welcome to the MSD4E intervention library

The Intervention Library profiles MSD4E interventions from around the world, providing insights on current practices and offering the chance for those active in the space to connect with one another.

It features over 50 intervention summaries covering job creation, job matching, skills development, job quality and a range of related themes. The interventions were identified and written up as part of the [MSD4E Landscape Assessment](#).

How to use the Intervention Library

<https://beamexchange.org/practice/about-msd4e/>

Part 3

Example use cases

Example use cases

What's next?

1

**Provide
feedback and
submit new
cases**

2

**Experiment with
different use
cases**

3

**Join the MSD4E
Community of
Practice**

*Please send feedback, questions or ideas for new cases to
mike.klassen@beamexchange.org*

Q&A session
